Cristofaro is a design and fabrication studio based in the San Francisco Bay Area. We partner with interior designers, architects, and builders to create custom metalwork and furniture.

From first sketch to final finish, we do everything in-house - uniting high-level design thinking with masterful making under one roof.

Led by designer and maker Justin Cristofaro, our studio carries every project from idea through to built reality. We start every project with a rigorous design exploration and end with pieces that are structurally sound and meticulously finished.

SELECTED WORK 2024 | 2025

Kensington Residence

DESCRIPTION

A hand-formed brass range hood with vintage patina, paired with custom stools in Sahara Royalin leather and rolled tubular steel.

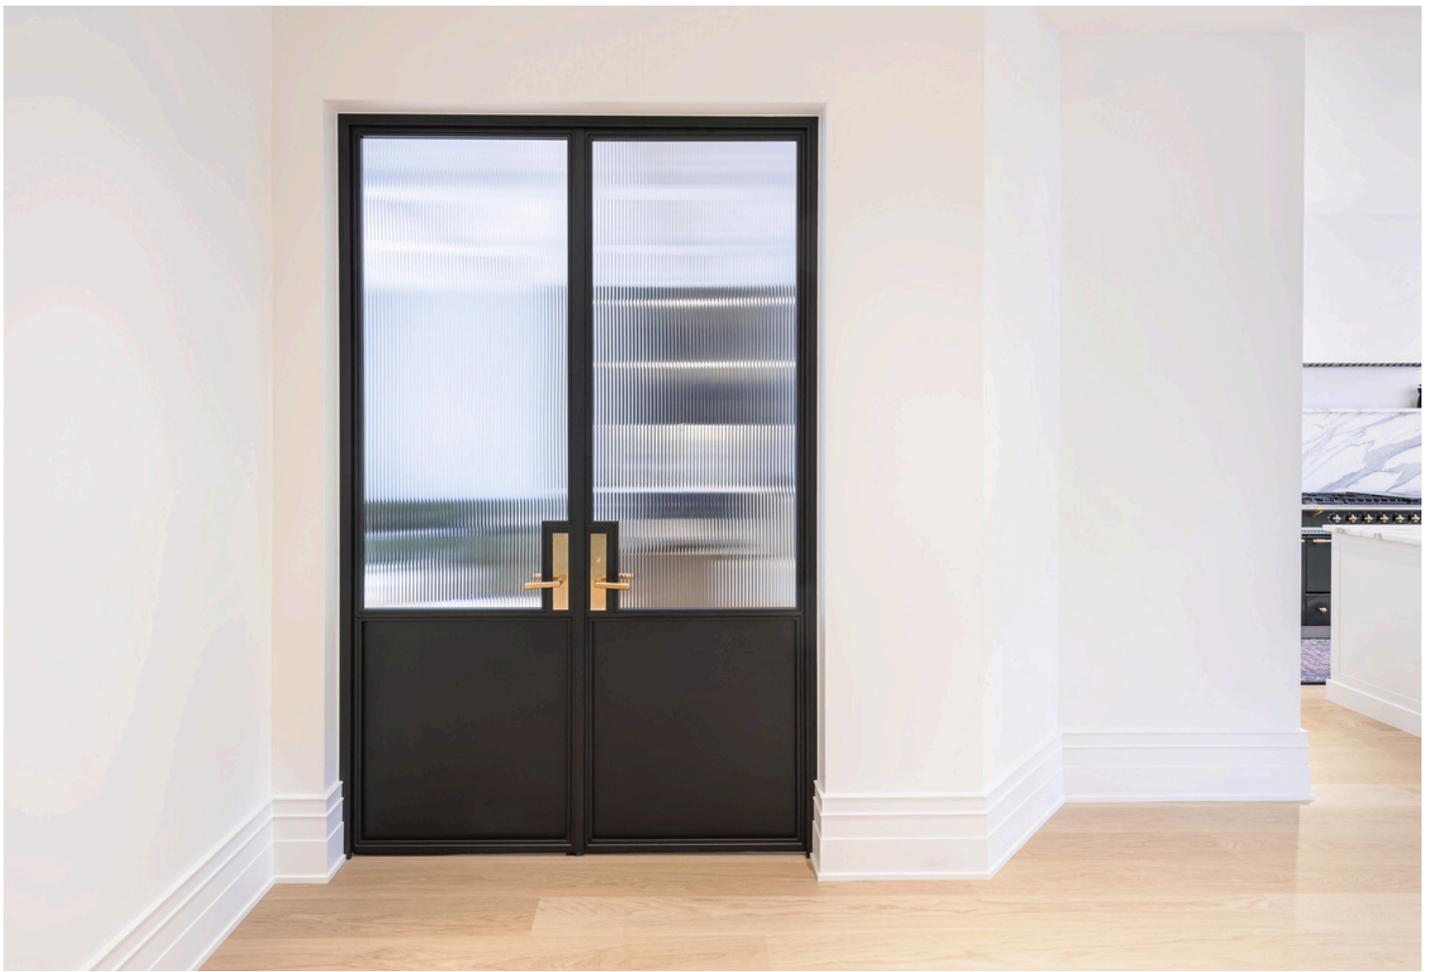

YEAR

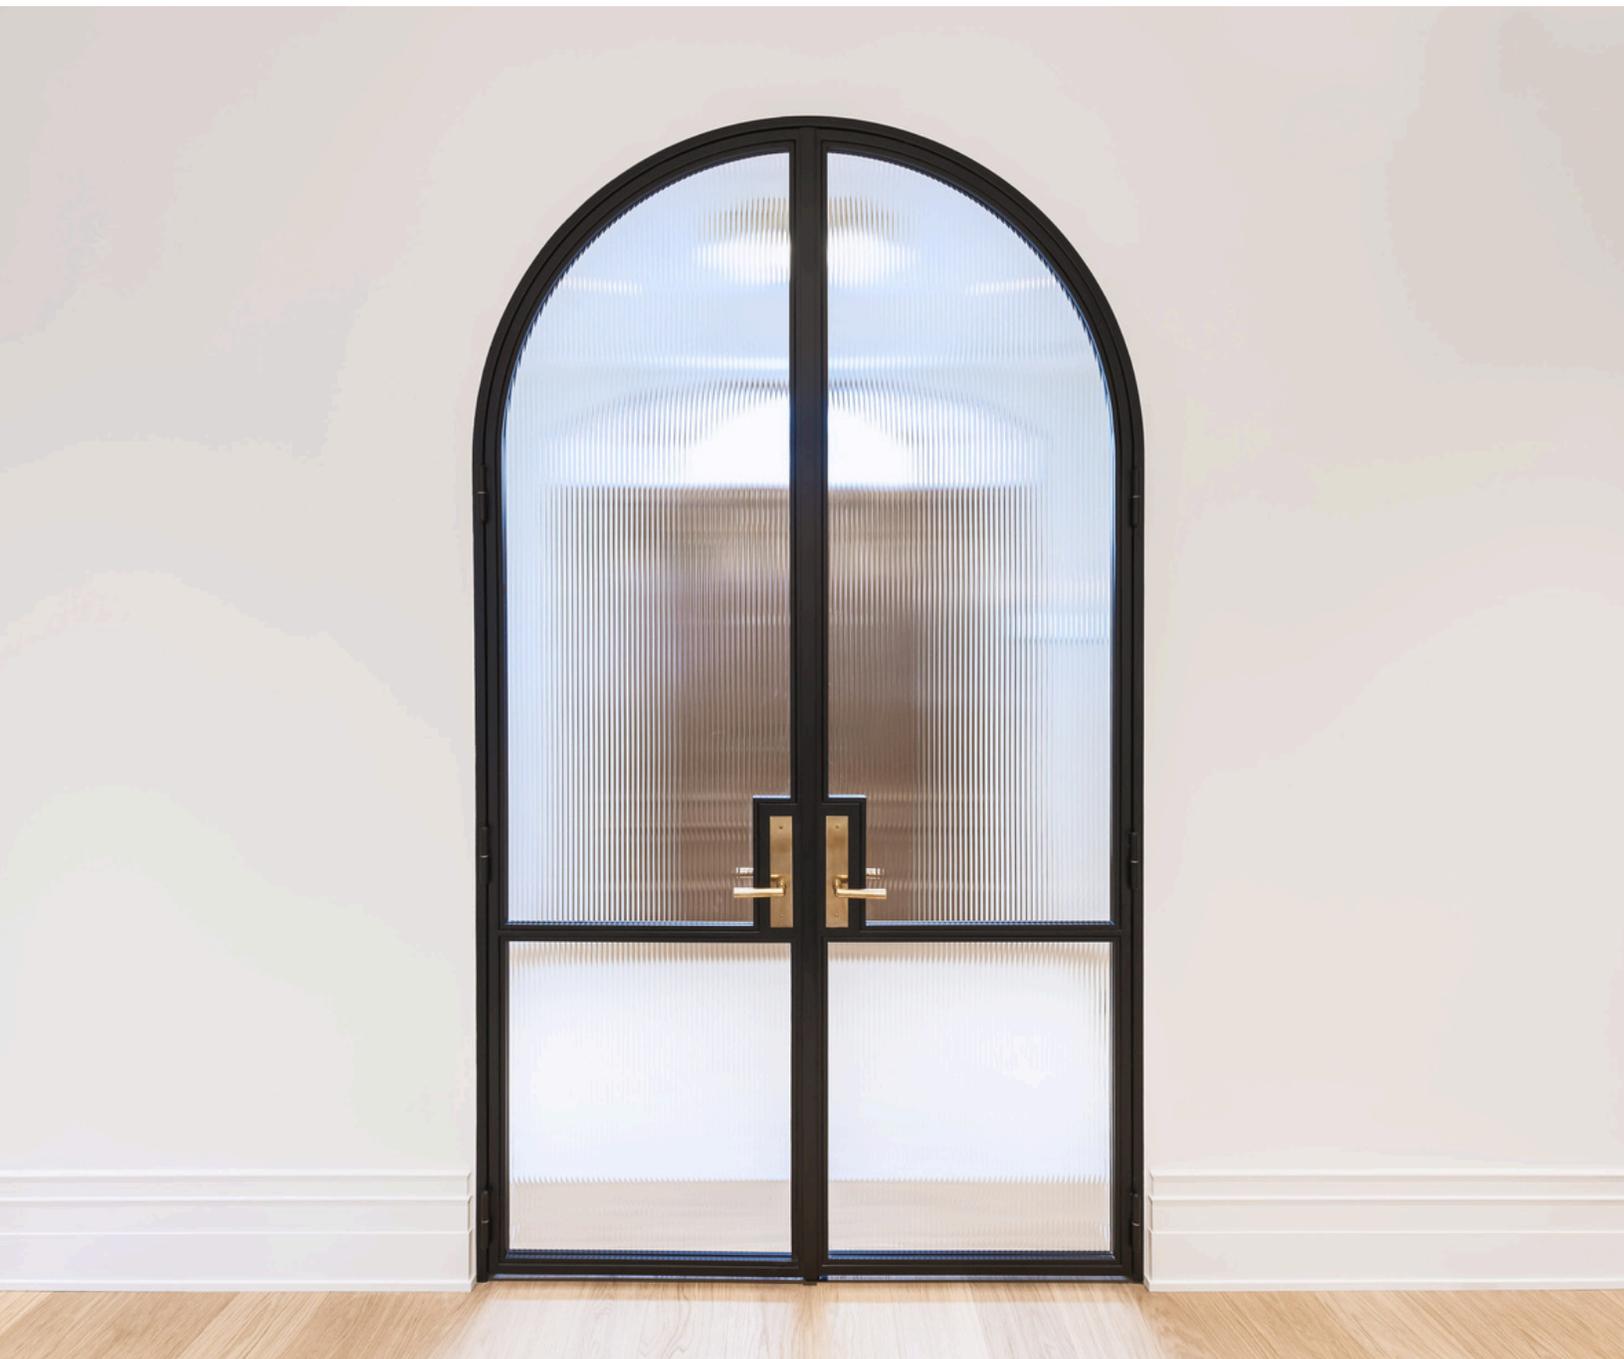

2024

LOCATION

Toronto, Canada.

PHOTOGRAPHY
BY ANA JOVMIR.

Hibou Workspace

DESCRIPTION

Steel-framed doors with reeded glass and solid brass hardware carry the material palette through the studio, balancing warmth and weight across every detail.

YEAR

2024

LOCATION

Montréal Canada.

PHOTOGRAPHY
BY ANA JOVMIR.

McGill Residence

DESCRIPTION

A dining table crafted from solid aluminum, hand-finished with a wet-sanded texture that softens the metal's industrial character. The sculptural base and refined surface bring a quiet weight to the room.

YEAR

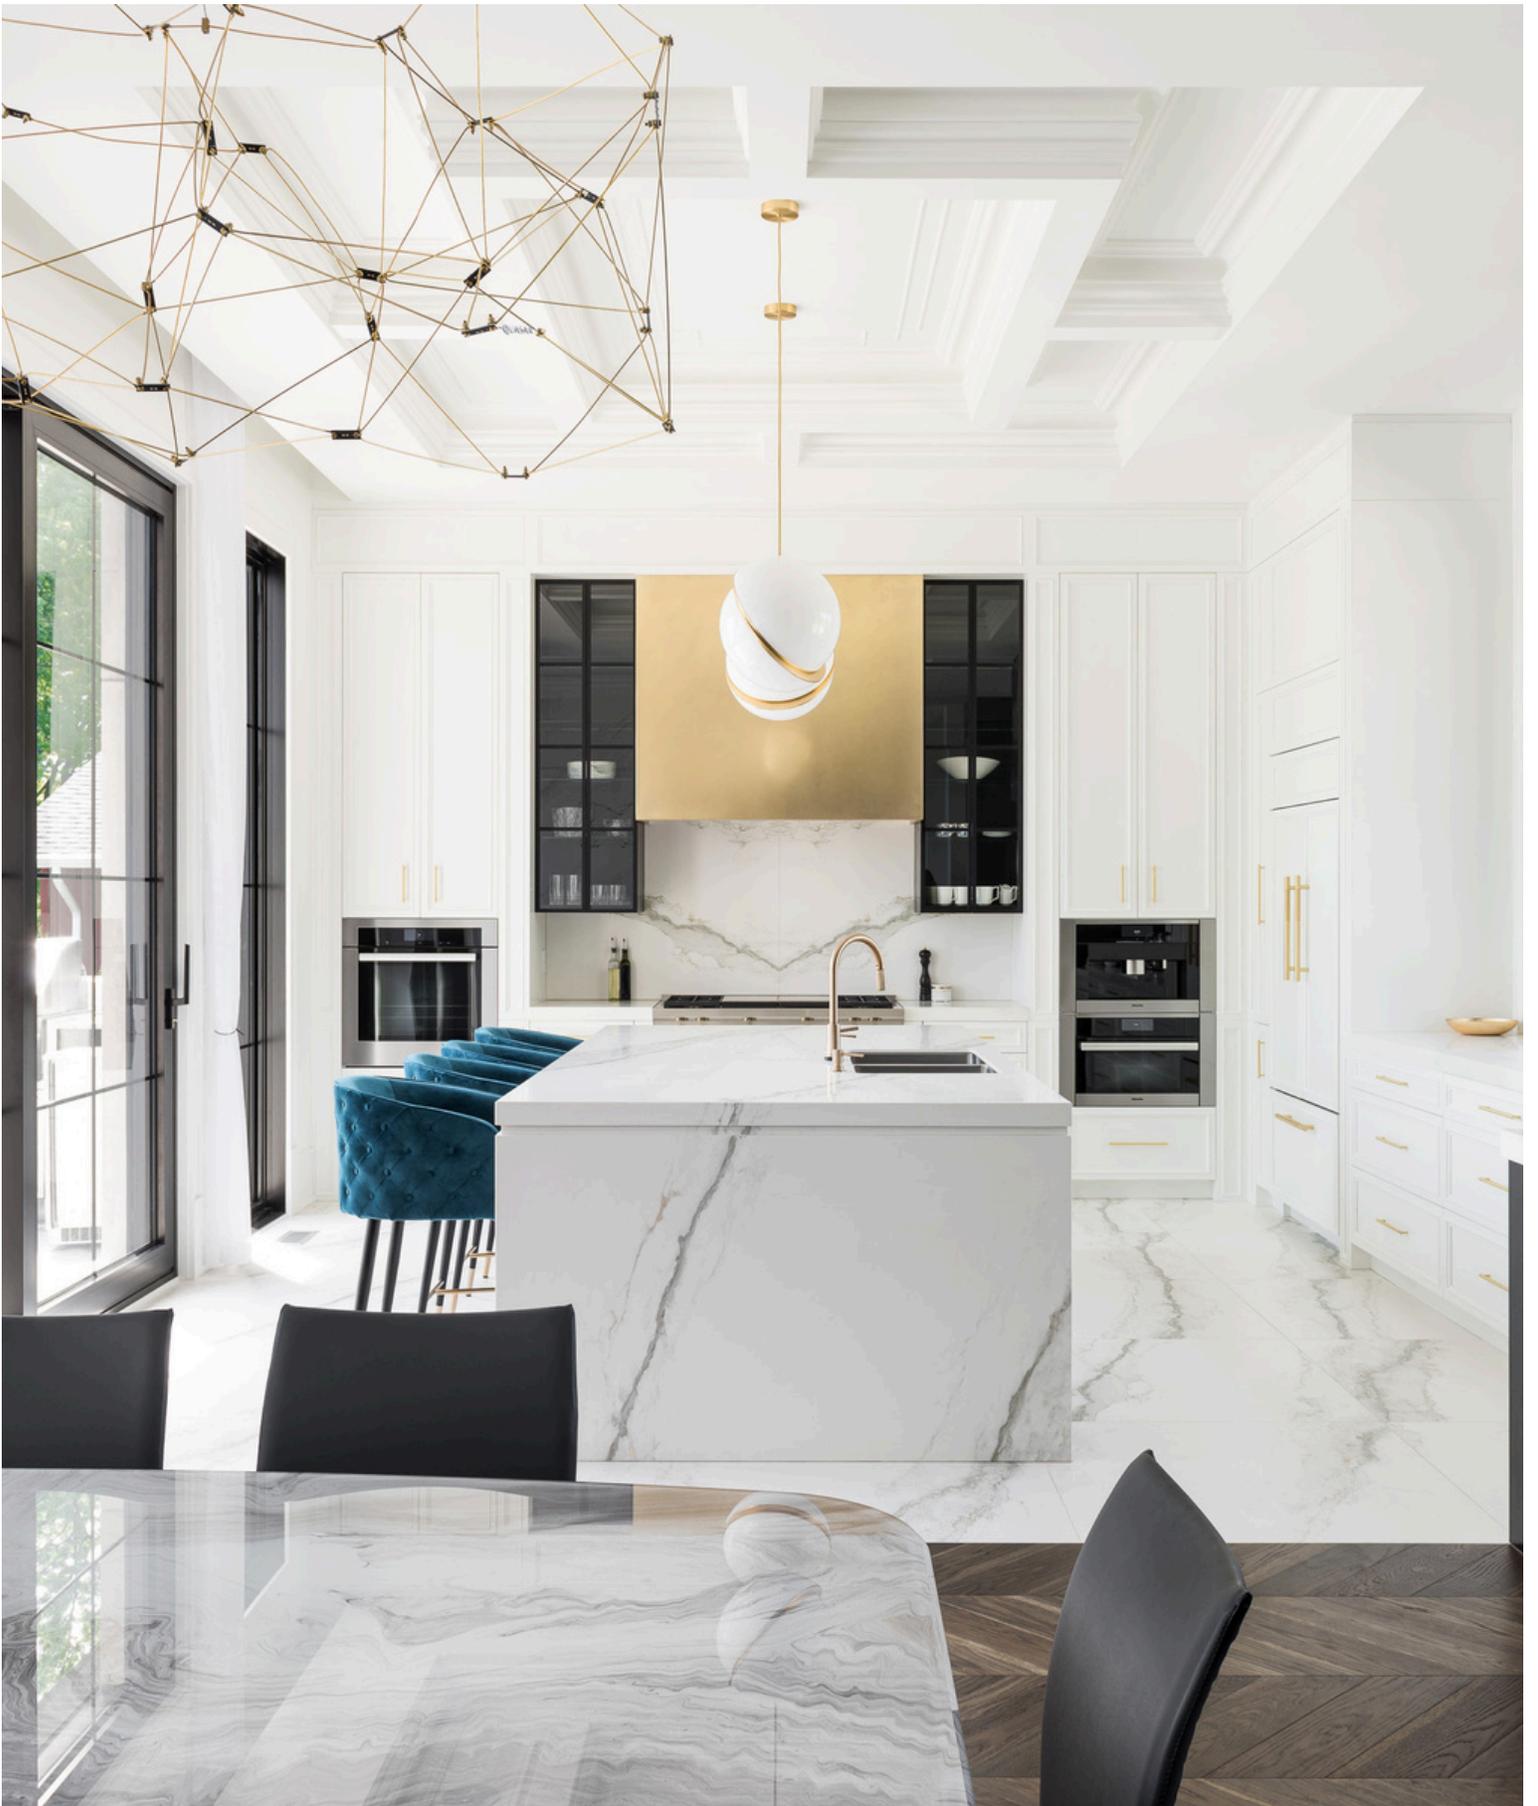

2024

LOCATION

Montréal Canada.

PHOTOGRAPHY

BY ALEXANDRE LESAGE.

+ Lakeside Residence

DESCRIPTION

A range hood handcrafted from solid brass, proportioned to anchor the kitchen against the surrounding marble and millwork. The unlacquered finish is designed as a living surface — developing warmth and depth over time.

YEAR

2024

LOCATION

Montréal Canada.

PHOTOGRAPHY
BY ANA JOVMIR.

+ Villeneuve Residence

DESCRIPTION

A stainless steel rod partition designed to define a room within a room. The vertical rhythm of the rods filters light and sightlines, creating separation without enclosure.

YEAR

2024

LOCATION

Montréal Canada.

PHOTOGRAPHY
BY ALEXANDRE LESAGE.

+ Wellington Loft

DESCRIPTION

A full-scope metalwork package for a converted loft — sliding glass walls, steel-framed partitions, and custom cabinetry. Steel and rich walnut work together to complement the building's original timber and brick.

YEAR

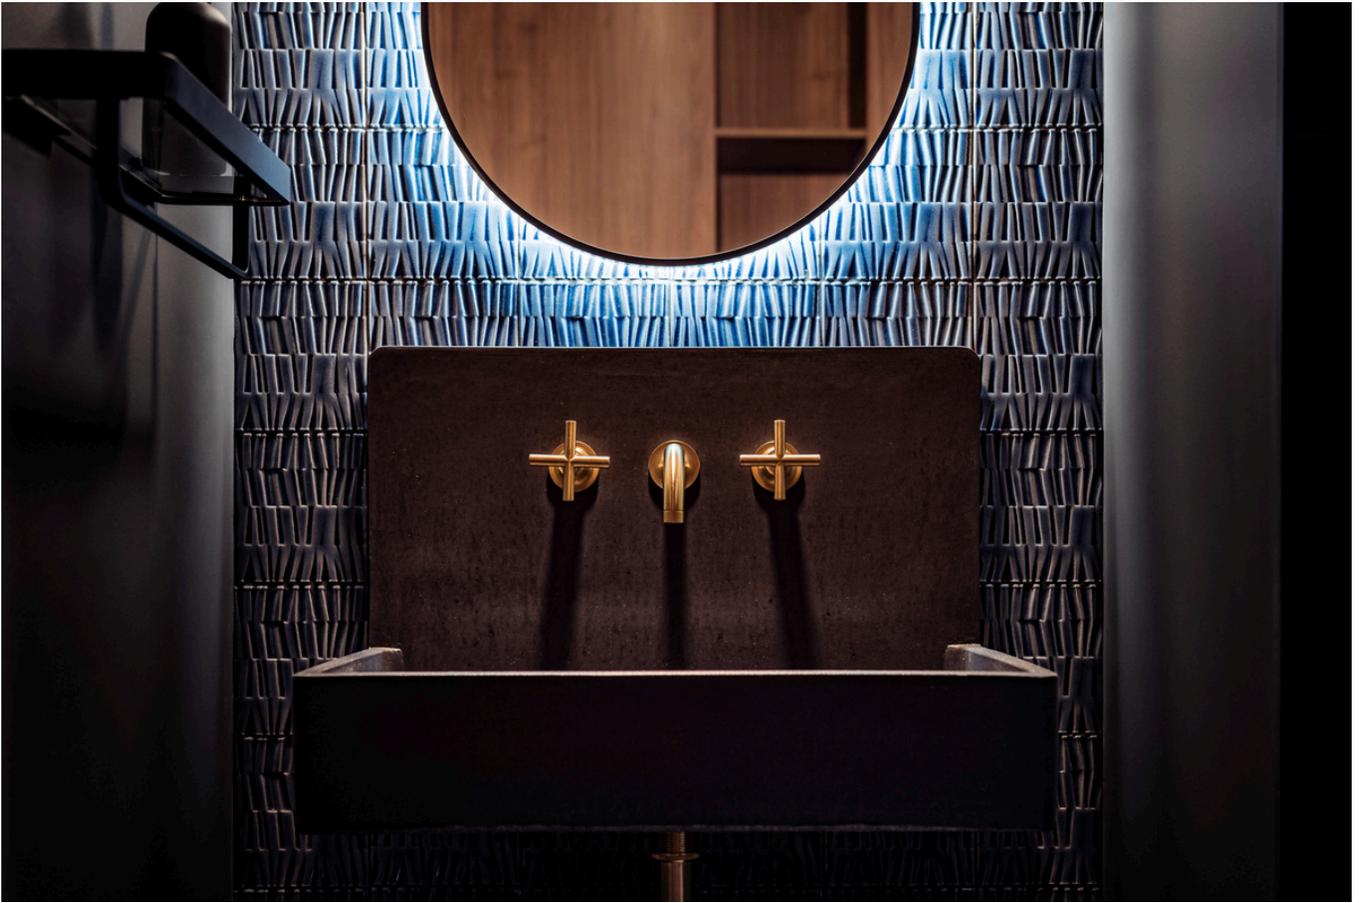

2025

LOCATION

Montréal Canada.

PHOTOGRAPHY
BY MAXIME BROUILLET.

+ Grosvenor Residence

DESCRIPTION

Steel-framed arched doors with reeded glass, designed to divide the living and dining spaces while preserving light and openness. Each frame was detailed to complement the home's existing millwork and proportions.

YEAR

2025

LOCATION

Montréal Canada.

PHOTOGRAPHY
BY MAXIME BROUILLET.

Artemys Salon

DESCRIPTION

A collection of brass-accented tables and display furniture designed for a high-end salon. Powder-coated steel frames are paired with solid brass details, balancing durability with a refined material presence throughout the space.

YEAR

2024

LOCATION

Montréal Canada.

PHOTOGRAPHY
BY ALEXANDRE LESAGE.

+ 207 Boutique

DESCRIPTION

Display tables with a custom patina showcasing a range of rich hues, from deep blues to warm browns and copper tones, creating a dynamic surface that evolves over time. The tables are tailored to meet the specific dimensions of the boutique, built to fit perfectly within one another when assembled.

YEAR

2024

LOCATION

Montréal Canada.

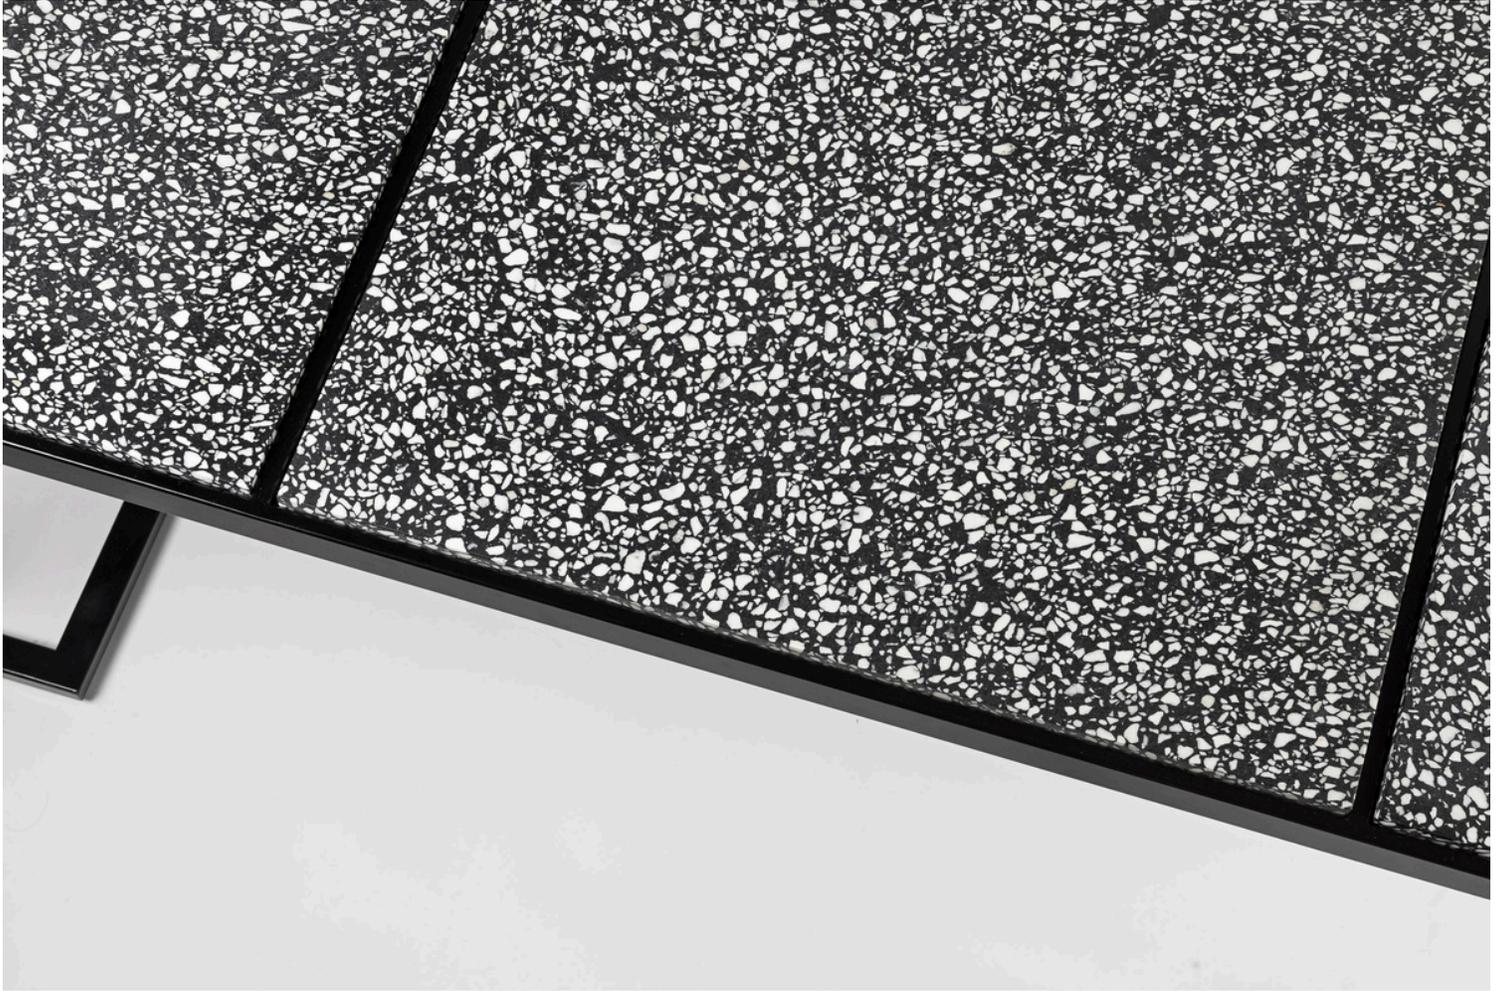

PHOTOGRAPHY
BY ARSENI KAMZIN.

We work with a select group of interior designers, architects, and discerning clients who value:

Integrated Design and Fabrication: One team from concept to completion, ensuring every detail stays aligned from design intent through final install.

Craftsmanship Rooted in Material Intelligence: Steel, brass, wood, and stone understood not as surfaces, but as expressive and enduring elements.

Meaningful Collaboration: We're partners in problem solving - bringing technical insight and aesthetic judgement at every stage.
